The Miracles are an American rhythm and blues vocal group. It became one of the most important and influential groups in pop, rock and roll, and R&B music history with legendary hits such as Shop Around, You've Really Got a Hold on Me, and The Tracks of My Tears.

Decades later, the torch has passed from Berry Gordy, Pete Moore and Claudette Robinson to today's performers, with leadership from Smokey Robinson to Sydney Justin. Today's musicians keep the legend alive with the same sights and sounds of the songs made popular by the original members.
